

Name: SethDoesTech, Hankk

Role: Project Creator and Leader, Software Developer

Description:

“Hi, I’m Seth and I’m the creator of this project. I’m a student who has fun ideas and isn’t afraid to throw myself at them. While I absolutely am not a professional developer and shouldn’t be confused for one, I do hope to one day become one. I absolutely despised programming for a long time, and even today I don’t do much of it myself, but I definitely enjoy it much more when it has a purpose. I hope you enjoy using my software, and that one day it will be in the hands of many.”
